

# Prismatic and Program Evaluation

We have evaluated more than \$40 million in U.S. DOE and state grants, in addition to more than \$5 million in district-funded programs.

We design evaluations based on the goals and structure of the program to be evaluated. We can do qualitative, quantitative, mixed methods, quasi-experimental, you name it. We have the skills and tools to design and complete the evaluation you need. All Prismatic projects incorporate four pillars:

- **Standards**
- **Leading Edge Tools and Technology**
- **Personalized Service**
- **Low Overhead**

We see program evaluation not as a fault-finding exercise, but as an opportunity to work with a program to truly understand its implementation, its challenges, and its successes. We maintain our independence, but do not see that as a barrier to providing our clients support in making their programs successful.

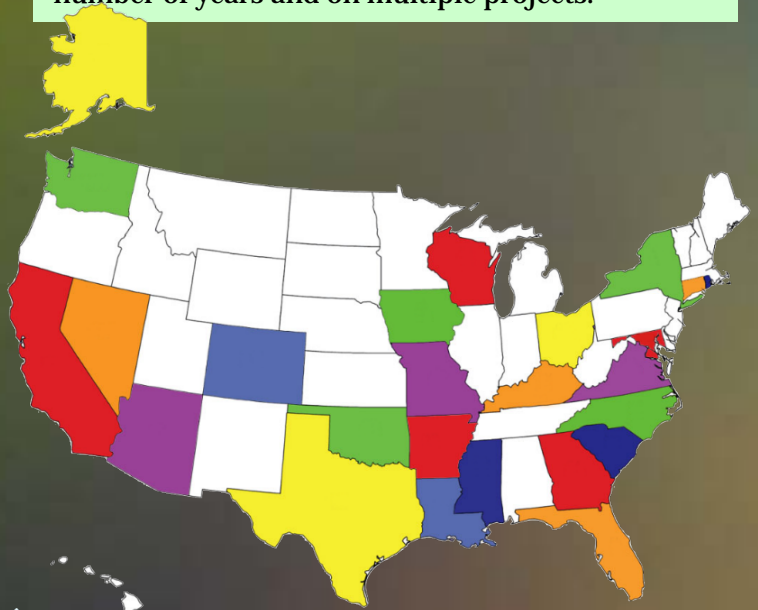

## Programs Evaluated to Date

Binge Drinking Prevention Project
Character Education
Comprehensive School Reform
Elementary and Secondary Counseling (ESSC)
Even Start
Florida Increasing Refugee Student Achievement
Foreign Language Acquisition Program (FLAP)
